

Can Yildiz

Senior UX/UI Designer & Product Design Lead

can.yildiz@email.com | +90 533 210 98 76 | linkedin.com/in/canyildiz | behance.net/canyildiz | İstanbul, Türkiye

PROFESSIONAL SUMMARY

Senior UX/UI Designer with 7+ years of experience crafting intuitive digital products for mobile and web platforms. Skilled in end-to-end design processes — from user research and journey mapping to prototyping and design system management. Passionate about accessibility and inclusive design. Led design for products used by 5M+ users across fintech, e-commerce, and health sectors.

WORK EXPERIENCE

Product Design Lead

Papara – İstanbul, Türkiye

Apr 2021 – Present

- Led design for Papara's mobile super-app (iOS & Android), used by 5M+ active users in Turkey and Europe.
- Built and maintained a comprehensive design system (300+ components) in Figma, reducing design-to-dev handoff time by 50%.
- Conducted 60+ moderated and unmoderated usability tests; insights directly shaped 3 major product releases.
- Increased onboarding completion rate from 61% to 84% through iterative UX redesign and A/B testing.
- Managed a team of 4 designers; introduced design critique sessions and a shared component library workflow.

Senior UX Designer

Getir – İstanbul, Türkiye

Jun 2018 – Mar 2021

- Redesigned the checkout flow for Getir's consumer app, reducing cart abandonment by 22%.
- Defined IA and navigation patterns for the courier-facing operations app used by 10K+ couriers.
- Collaborated closely with engineers and PMs in agile sprints; maintained 95%+ design QA pass rate.
- Created user journey maps and personas from qualitative research with 200+ user interviews.

UI/UX Designer

Logo Yazılım – Gebze, Türkiye

Aug 2016 – May 2018

- Designed interfaces for Logo's ERP desktop and web modules used by 50K+ SME customers.
- Conducted heuristic evaluations and accessibility audits; improved WCAG compliance to AA level.

EDUCATION

B.A. Visual Communication Design

Sabancı Üniversitesi – İstanbul, Türkiye

Sep 2012 – Jun 2016 | GPA: 3.55 / 4.00

- Graduation project: Inclusive wayfinding system for visually impaired users — exhibited at Istanbul Design Biennial 2016.
